Objectifs de l'axe 5

- How to improve the population livelihoods around traditional and modern water bodies by a sustainable management of water resources

Objectifs spécifiques

1

- How to improve the population livelihoods around traditional and modern water bodies by a sustainable management of water resources

2

- Identify actors strategies by the water bodies exploitation

3

- Look at the linkage between legality and legitimacy issue

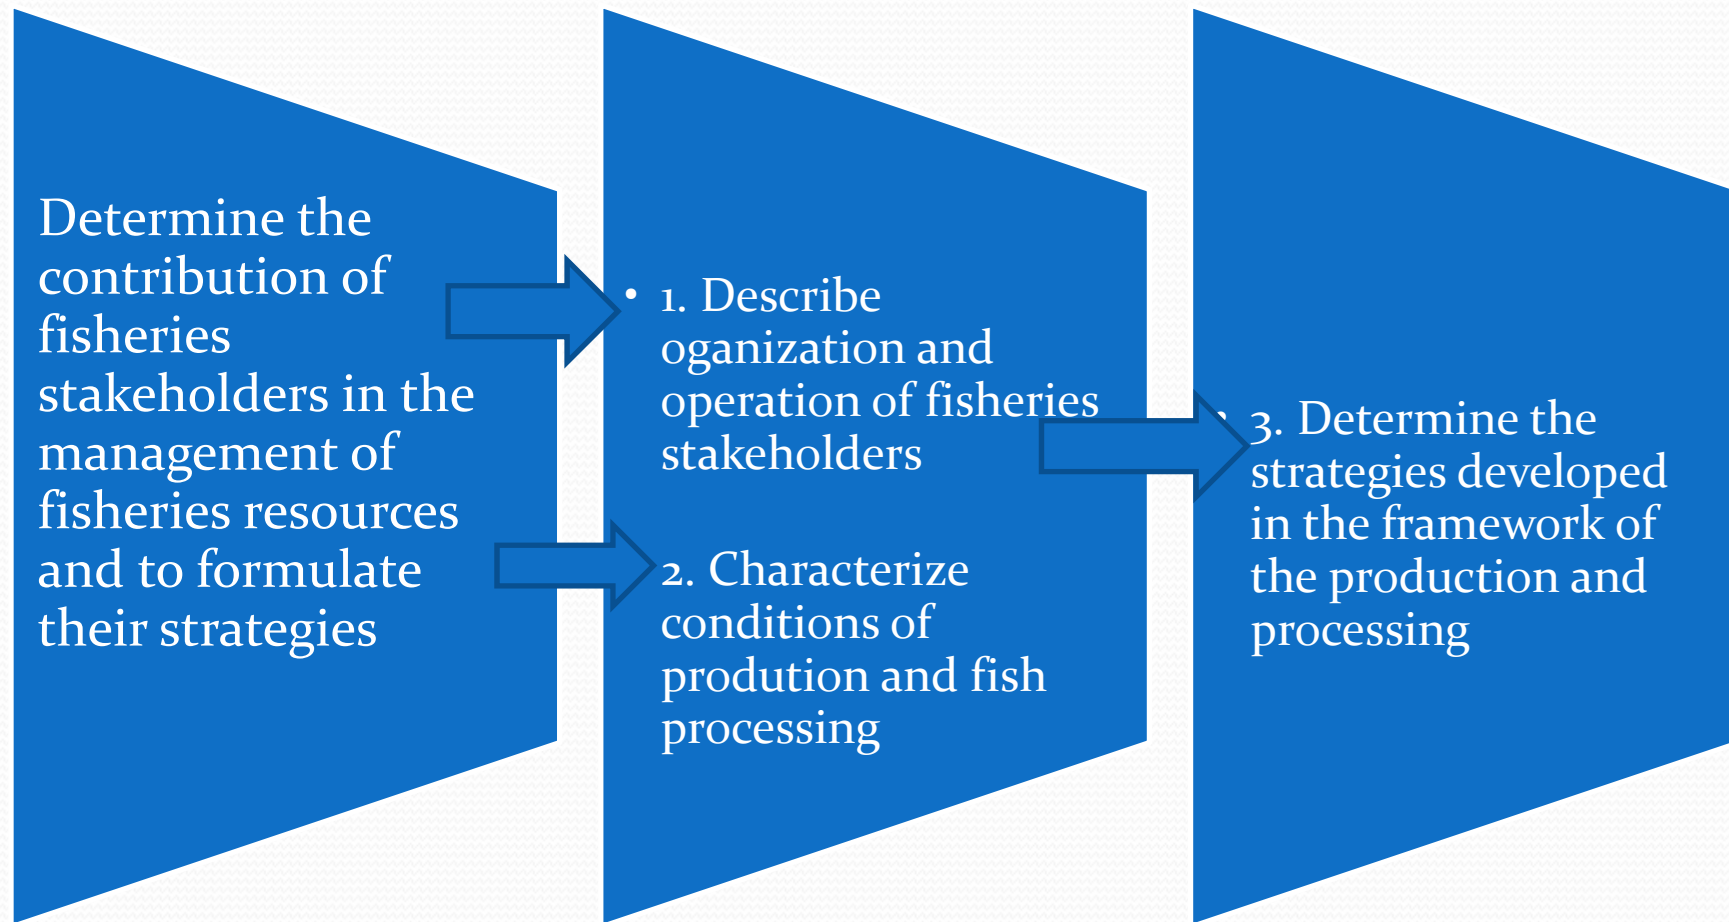

Three Topics

Farmer participation and stakeholder strategies
around water bodies : Case of Sourou and Boromo

Community fisheries and development strategy in
Burkina Faso : case of Bam and Bagré

Gouvernance and traditional institutions in
Fisheries in Burkina Faso : case of Mossodougou,
Tiéfora end Tengrela

TOPIC 1: Farmer participation and stakeholder strategies around water bodies : Case of Sourou and Boromo (By J. Pamela SANOU)

TOPIC1/RESULTS

Figure 1: Distribution of fishermen along ethnic

TOPIC1/RESULTS

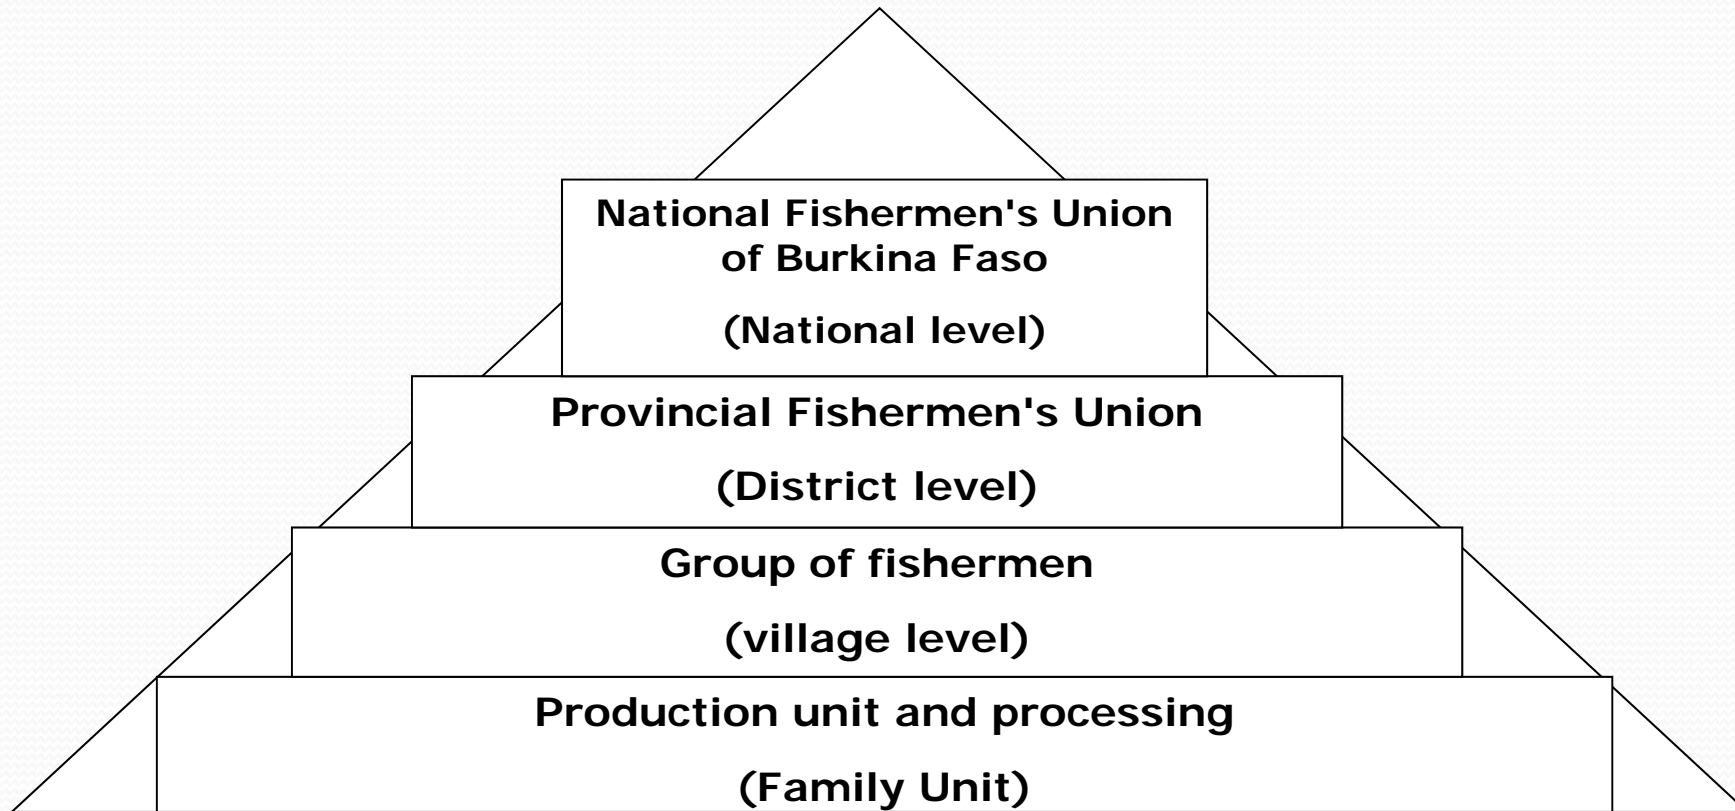

Figure 2: Structure of the pyramidal organization of fishing

TOPIC1/RESULTS

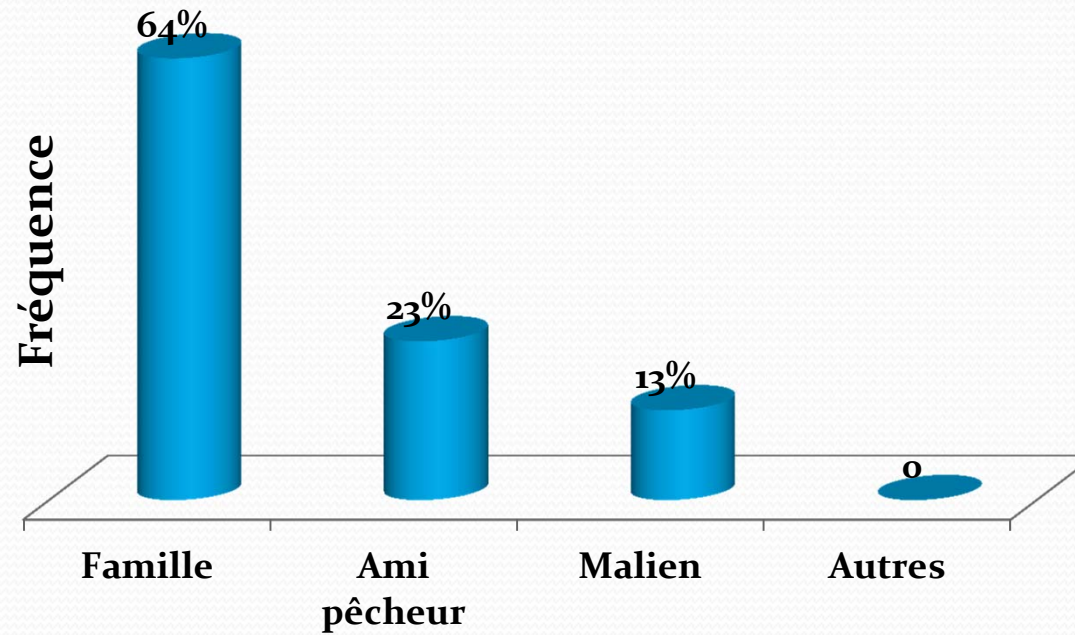

Figure 2: Distribution of fishermen depending on the learning activity sources

TOPIC 1/RESULTS

Figure 3: Where to buy fish from fishermen

TOPIC 1/RESULTS

➤ The fishing equipment

- *Gillnets*
- *Hawks nets*
- *Canoes*
- *Knives or other sharp objects*

➤ The processing equipment

- *Burkinabe traditional smokehouses*
- *Smokehouses inspiration from Mali*
- *Improved kilns*
- *Fences*
- *Sheets*
- *Baskets or large containers*

TOPIC 1/RESULTS

Figure 4: Sale of fish by women

TOPIC 1/RESULTS

Figure 12: Percentage of fishermen who have taken credit for fishing

TOPIC 1/RESULTS

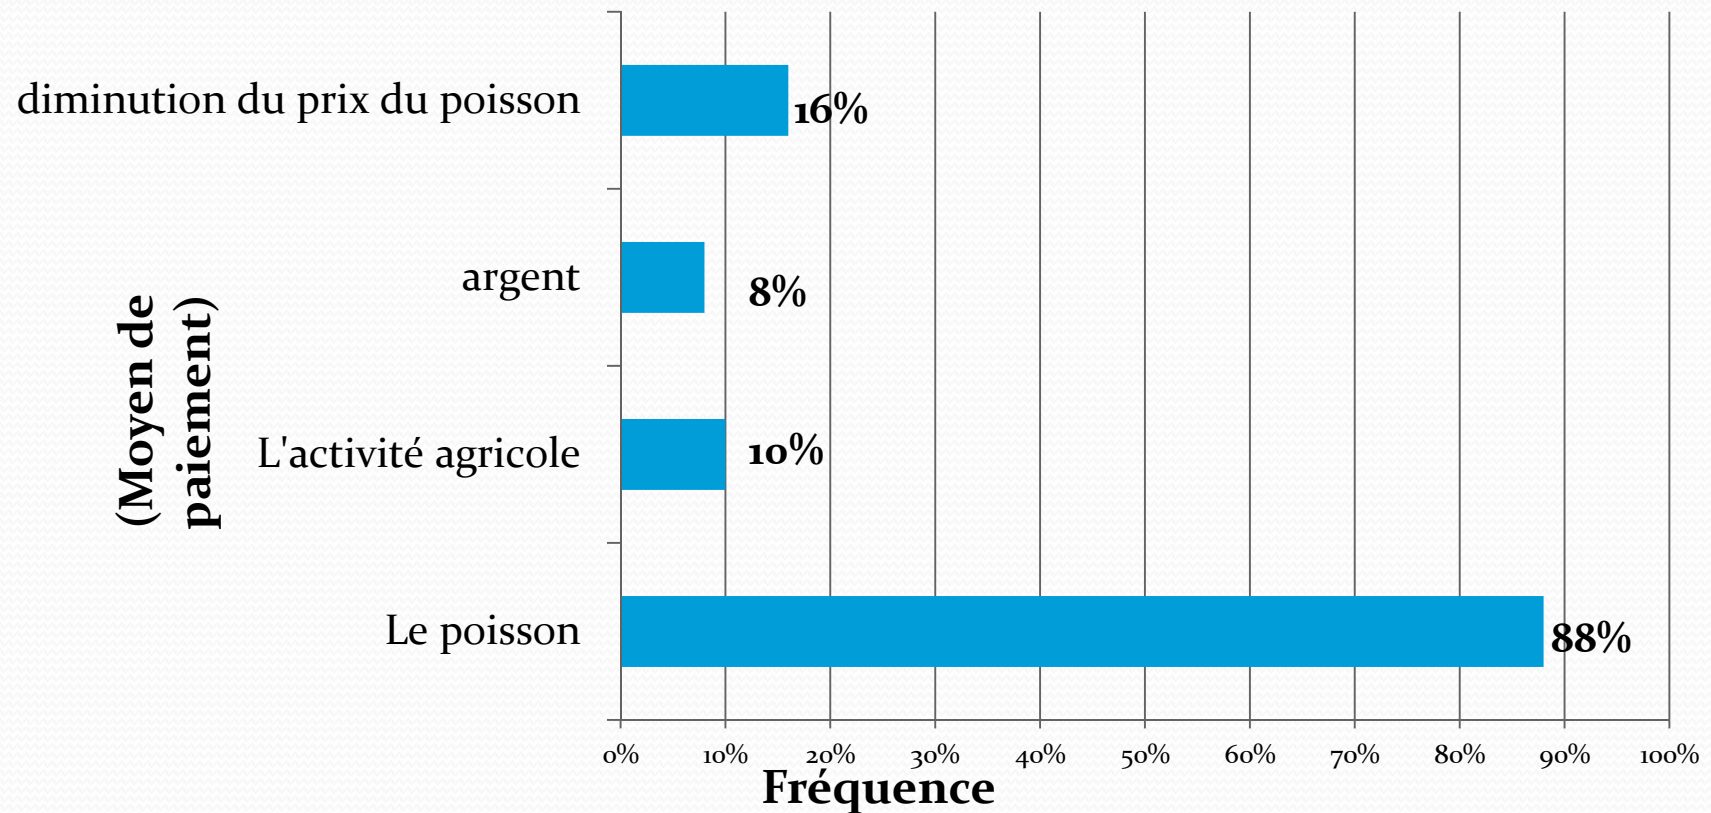

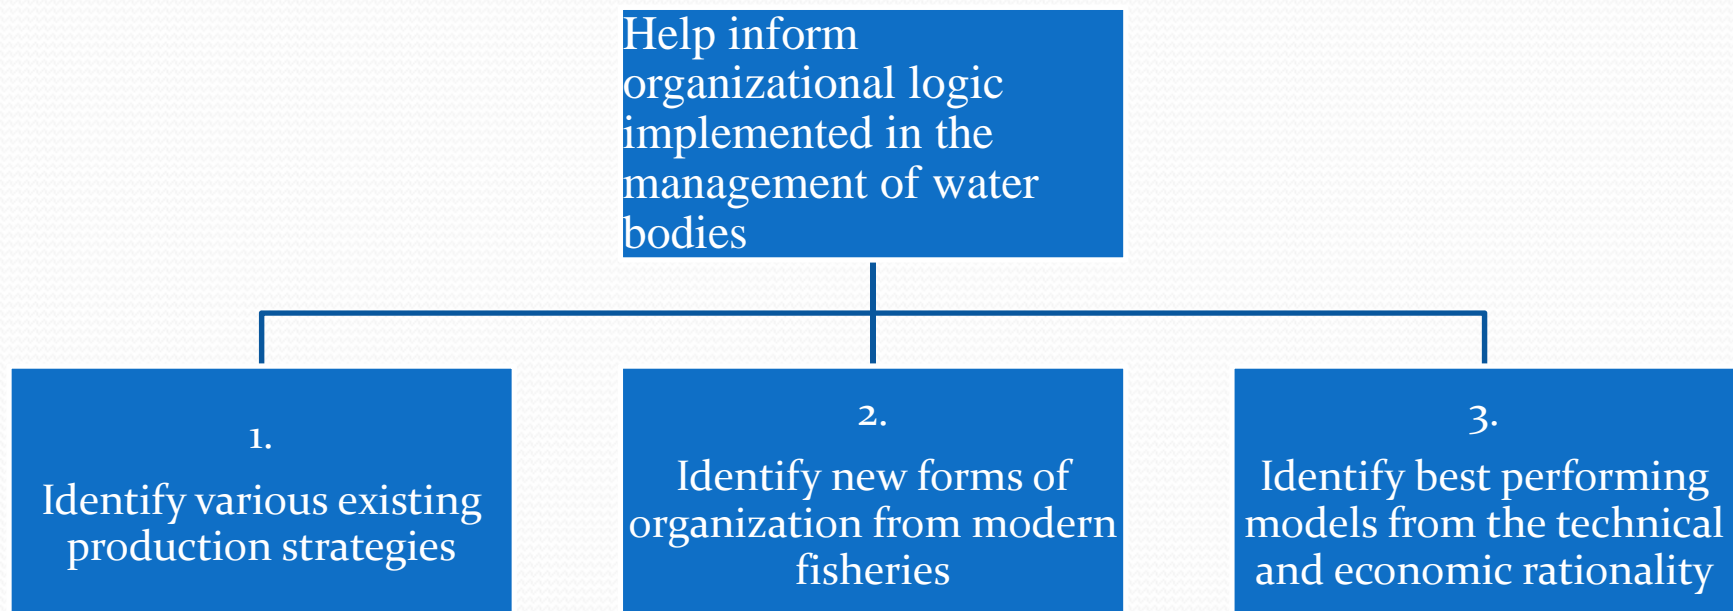

Figure 14: Method of payment of loans granted

TOPIC 2: Community fisheries and development strategy in Burkina

Faso : case of Bam and Bagré (By Aboubacar TRAORE)

TOPIC 2/RESULTS

- Fishing is practiced mostly by indigenous peoples, the Mossi in Bam and Bissa in Bagré.

	Mossi	Bissa	Silmimossé
Bam	97%	0%	3%
Bagré	34%	66%	0%

- “In 2010, five (5) fishermen Ghanaian came to fish in Bagré dam. They were arrested and imprisoned by the police ” (K. L., 60 ans, Bam)*

TOPIC2/RESULTS

- **Fishing Equipment**

	Bam	Bagré
Canoes	57%	83%
Gillnets	84%	97%
Hawks net	20%	17%
hooks	58%	60%

- The Bozo fishermen and Somono in Mali using large triangular nets, large traps, seines and gear craft as engines pinasses (Baumann, 1991).

TOPIC 2/RESULTS

Distribution of fishermen depending on the number of sockets

	Pêche la veille du jour d'enquête	Nombre de prises mensuelles			Moyenne journalière des prises
		Moins de 15 fois	Entre 15 et 25 fois	Plus de 25 fois	
Bam	52%	9%	17%	74%	4 kg
Bagré	51%	16%	22%	62%	5 kg

TOPIC 2/RESULTS

Farmers Organization fishing in Bagré

- 1 Union of fishermen
- 4 Groups of fishermen
- 1 Union group of women transforming fish
- 1 group of wholesalers (100% hommes)

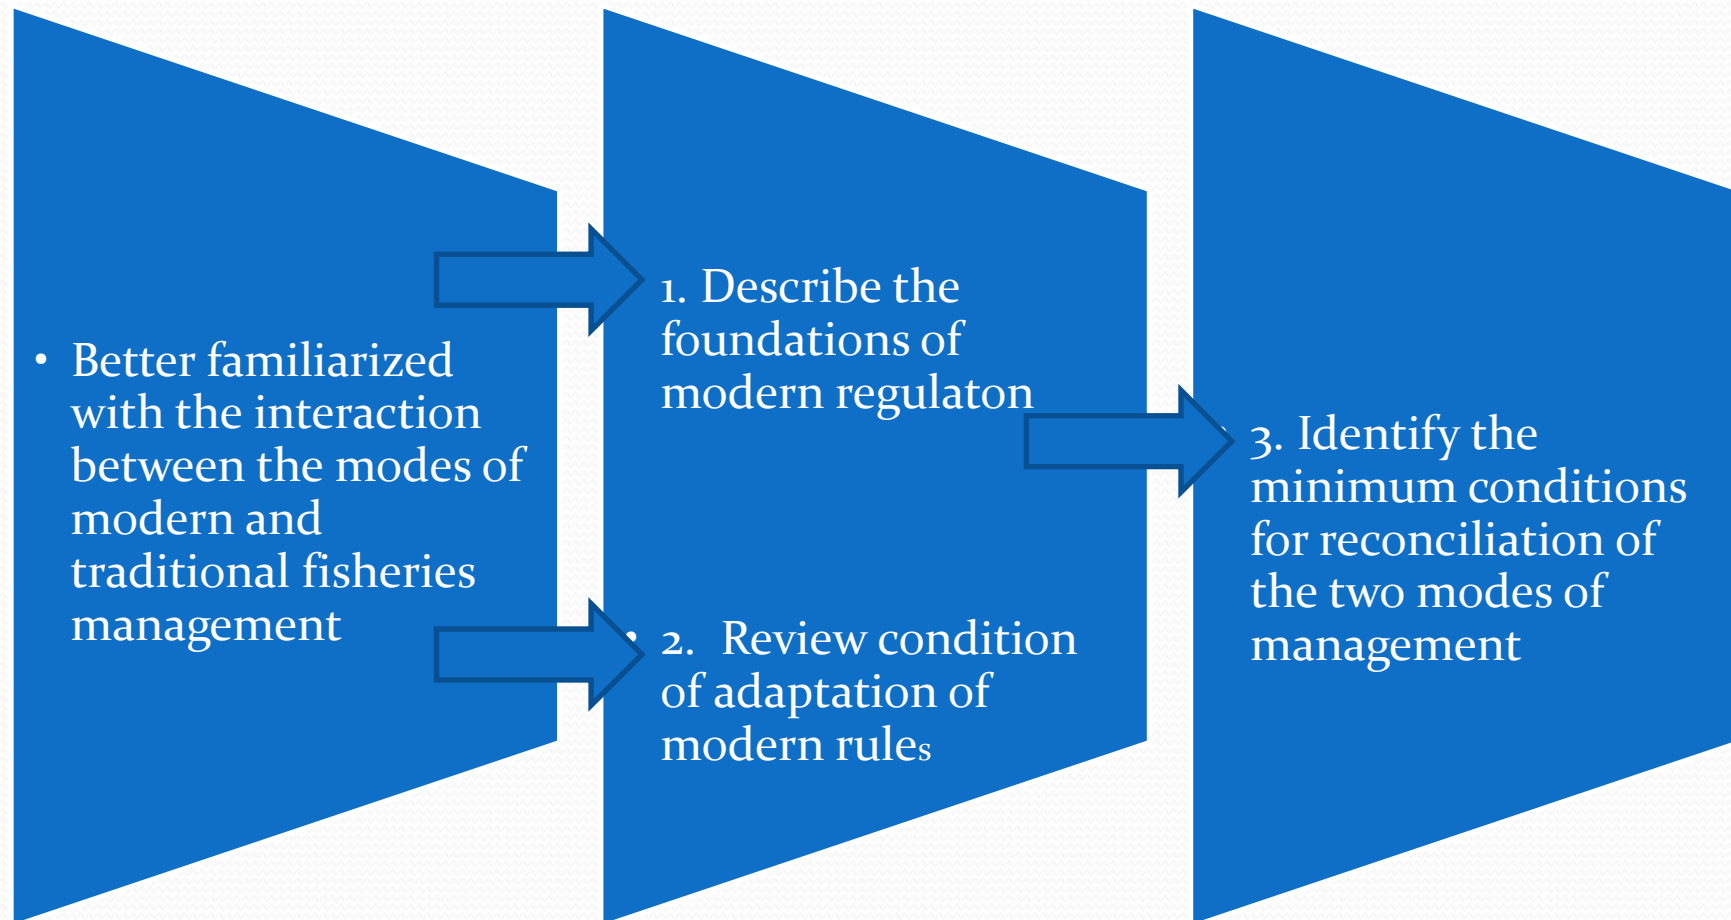

TOPIC 2/RESULTS

Who has access to the resource?

	Peopless with access	People without access
Bagré	Natives Allochtonous Members of groupment	Allochtonous from others countries
Bam	Natives Alloctonous Members of Groupment	Allochtonous from thers countries

Despite the policy of sharing the resource, it is layers of the population remain excluded from the resource

TOPIC 3. Gouvernance and traditional institutions in Fisheries in Burkina Faso : cases of Mossodougou, Tiéfora and Tengrela (BY Vincent-Paul SANOU)

CONCLUSION

- All our three topics were achieved
- Future steps
 - 1. Completed the literature review for:
 - Improve the different reports;
 - Prepare scientific publications for December (2 scientific publications, 1 book on Governance and fishing)
 - 2. Review the gender dimension in specific issues by using gender material
 - 3. Undertake some three topics in three other areas (include the North)

THANK YOU
FOR YOUR ATTENTION
